 - o Monday- Friday (0930/10am- 530/6pm)
- **Permanent Part-time Pharmacist**
 - o may include evenings (until 8pm) and Saturdays (12-6pm)

Job Overview

We are a full-service community pharmacy but have a special interest in supporting patients with mental illness and other marginalized conditions. We regularly provide injection-based treatments to our patients in addition to ongoing monitoring. We communicate regularly with clinicians involved in the care of our patients and feedback progress or concerns accordingly. We regularly conduct medication assessments and take particular pride in delivering quality clinical care to our patients. Furthermore, we are also involved with multidisciplinary specialty clinics such as the Specialist Clinic for Opioid Agonist Therapy and metabolic monitoring clinic and provide regular group medication teaching. The store is owned by a Doctor of Pharmacy who provides clinical support and mentorship to the pharmacists.

Responsibilities, Duties and Expectations

- Participate in the safe preparation, dispensing and inventory management of all medications
- Effectively educate patients about new medications and/or changes in medications
- Advocate for patients whenever necessary
- Prescribe medications for patients when indicated
- Problem solve in a timely manner
- Demonstrate empathy and be non-judgmental
- Effectively collaborate with others
- Participate in the supervision of the pharmacy assistant
- Communicate effectively

Qualifications

- Bachelor of Science in Pharmacy
- Active license to practice in Saskatchewan in good standing
- Injection Certification
- PACT training, Minor Ailment Prescribing Authority
- Proficiency in TELUS Kroll Pharmacy Software
- At least one year of community pharmacy experience
